

Nando Parrado 9/2/07
Evaluation Summary

How would you rate Nando Parrado as a speaker:	Suggestions for organizers:
1 the most impressive speaker I have ever heard - I was spellbound!!	no response
2 100 on the 1-10 scale- of all the classes I've taken on how to live life, there he is living it, speaking it, I love how he is living in life and the entire talk was put together or came from the heart in a way I couldn't think of improving. "excellent" I am so blessed to be here today to hear him - he is the best of the best in presenting.	things that have to do with what Nando touched us with Perhaps though environment, animals, etc.
3 Excellent - very believable, honorable & lovely	I think you have it down again - excellent!
4 Fabulous, inspiring - so incredibly humble	bring him BACK for all those that hear from all of us that were here how fabulous he was
5 10 out of 10	put things higher up on the screen. When sitting mid room, you can't see what's at the bottom. Example: couldn't see Tahoe Rim Trail was a beneficiary
6 10/10	no response
7 I didn't have particular expectations but he was inspirational and very down to earth	the speaking portion of this event was top notch. Gail Davis & Assoc & the Incline "Miracle Team" obviously spent oodles of hours making sure it was very well done
8 1st Class. Very inspirational	raise the screens higher so the words at the bottom can be seen over the heads of the audience
9 genuine - candid - unpretentious	show him on the screen sooner if the pictures (plane, etc) are not being used sound on music - loud, monitor it
10 Mr. Parrado's presentation resonated with me like no other in my 67 years. I finished the book only today and found his story, in writing and in person, an incredible inspiration for me	you will not be able to produce such an incredible event again! Keep in mind the excellence of this presentation as you think about next events. This is so much more meaningful than virtually all fund raisers I have given or attended. Push your audience and get them to engage in life and the importance of giving to others.

23	excellent. Presented as if he was a member of the family explaining his life experiences in a thoughtful way	more of the same
24	Excellent!! He explained his life and the things that happened - very understably.	The articles in the Bonanza leading up to the event made it much more interesting.
